

# PRODUCT INTEGRATION MODULE SUMMARY

Third Party Integration Modules for Escient Products

## Product Integration Modules

Escent provides pre-made integration modules for integration of Escent products with third-party remote control systems. These modules are available to download from our website at <http://www.escent.com/support/integration.html>

These modules are provided free of charge as a continuing effort to help our dealers and their clients quickly and effectively integrate Escent products with the most popular remote control and home automation systems including:

For questions, new module requests or comments on our modules please e-mail Escent Tech Support at [support@escent.com](mailto:support@escent.com).

If you would like to receive copies of our Technical Support Bulletins, please e-mail Escent Sales at [sales@escent.com](mailto:sales@escent.com).
